

Rev. McManaway, who is conducting the protracted meeting at the Baptist church in this city, went to Fayette Saturday to fill his regular appointment there Sunday. He returned to Montgomery Monday to continue his service here during the week.

Infant mortality is something frightful. Nearly one-quarter die before they reach one year, one-third before they are five, and one-half before they are fifteen! The timely use of White's Cacao Vermifuge would save a majority of these precious lives. Price 25c. Cason's Pharmacy. 11-9-1m.

Walter Gregory, wife and children came up from St. Louis last Monday and went out to Callaway county where they will visit relatives a few days. Mr. Gregory had his gun and dog with him and enjoyed a hunt while in the country.

There is no pleasure in life if you dread going to the table to eat and can't rest at night on account of indigestion. Henry Williams, of Booneville, Ind., says he suffered that way for years, till he commenced the use of Kodol Dyspepsia Cure, and adds, "now I can eat anything I like and all I want and sleep soundly every night." Kodol Dyspepsia Cure will digest what you eat. City Drug Store. 11-9-1m.

November 6, last, the day before her husband was elected county supervisor, Mrs. Felix J. Jauron, of Salix, Ia., gave birth to a 12-pound boy. Mr. Jauron was elected to the same position three years ago and a few days prior to that election he became the father of twin girl babies. He was the only democrat elected in Woodbury county.

This year she was nominated again, and, profiting by experience, made a personal canvass of her county with the result of being elected by a big majority.

You can't afford to risk your life by allowing a cough or a cold to develop into pneumonia or consumption. A Chicagoan just returned from a tour of the far west saw the following location on a mining claim in the Grand Encampment, Wyoming: "We found it, and we claim it by right of founding it. It's our'n. It's 750 feet in every direction except southwest northeast, and there is 300 feet on each side of this writin' It's called the Bay Horse, and we claim even the spurs, and we don't want nobody jumping on this Bay Horse—what's what these trees is around here for and we've got the same piece of rope we had down in old Missouri!"

Constipation means the accumulation of waste matter that should be discharged daily, and unless this is done the foul matter is absorbed and poisons the system. Use Herbine to bring about regularity of the bowels. Price 50c, Cason's Pharmacy. 11-9-1m.

The following item from the Liberal Independent indicates that factiousness is not the editor's long suit. He says: An exchange says the proper method to keep apples in winter is to wrap them in old newspapers so as to exclude air. The papers, however, must be ones on which the subscription has been paid, otherwise dampness resulting from what is 'dew' may cause the fruit to spoil.

Last Saturday, Nov. 10, Mr. J. R. Long presented this office with a large mass of new potatoes, a sample of the second crop grown in his garden this season. He dug his potatoes in August, but overlooked some of the hills. The fine fall induced these missed ones to resume the growing business, and they at once went to work. The second crop was equal to any new spring potatoes, and were nearly as large as goose eggs; and this without any working. With half a show, it is hard to keep Missouri soil from making and breaking records.—Middletown Chips.

Under an English law teachers may be appointed to elementary schools on satisfying the board that they have attained the age of 18 and that they have been vaccinated. The results are often humorous to the on-looker, but unfortunate for the children. Such a teacher stood up the other day and announced: "Now we will have our history lesson. We will take the queens of England first, beginning with Isabella. Find your places." It was a difficult place to find, and some of them are looking for it still. There are 16,747 young ladies holding positions in the English elementary schools under the provisions of the law referred to.

Her Hoodoo Party.

Miss Lettie Watkins is 13 years old today," says the Independence Reporter. "It is the 13th of the month and she has invited thirteen of her little friends to spend the afternoon with her. We hope for the best."

The church can give the strong points on discipline. At Emporia last Sunday a preacher requested all the ladies at the service to remove their hats. All the ladies removed their hats. Then the preacher said if any of the ladies thought they were sitting in a draught they had better put their hats on again. Whereupon all of the ladies put their hats on again.

Motorman and Farmer.

A story is told of a farmer who had never been in the city. He saw the safety guards on in front of the street cars, and thinking them to be bundle carriers, piled all his bundles on them before entering the car. The motorman, it is said, faintly, the best joke about it is that it is not true and the man who tells the story visited a farm recently and wanted to see the cow that gave the buttermilk. He was shown the goat. He also wanted some fruit of a single tree. He was shown a pair. The farmer is not always "so easy." There are others. I am of the opinion that should the above motorman see the bundle carrier on a self binder that he would think it intended to keep the grasshoppers off the track so the bull wheel would not fly around on a greased track. Truly one-half of the world don't know how the other lives, and in this regard the kettle cannot say to the pot, "You're black."

If you have sore throat, soreness across the back or side, or your lungs feel sore or tender, or you are threatened with diphtheria or pneumonia, apply Ballard's Snow Linctament externally and use Ballard's Hothardound Syrup. Cason's Pharmacy. 11-9-1m.

The county correspondence feature of the TRIBUNE can be excelled for county news.

Some of the Democratic organs are having considerable fun insinuating that Hanna is entitled to the Republican nomination for president 1904. Mr. Hanna will not be the Republican nominee, and doesn't want to be, but is perfectly safe to say that the business interests of the country, great and small, would rather see Hanna in the White House than William J. Bryan.

M. K. & T. Reduces Rates in Indian Territory.

Ever since the construction of the M. K. & T. Ry., through the Indian Territory, its local passenger rate between stations in the Indian Territory has been on the basis of five cents a mile. The customary rate of passenger fares on railroads, except in sparsely settled country, is three cents a mile. The population of the Indian Territory, during the past few years, has grown rapidly; there has been a large increase in passenger traffic on this account and the Katy officials, recognizing the wants of the people and the justice of so doing, have voluntarily arranged to reduce their local passenger rate to a basis of three cents a mile. This reduction will take place on or about November 1st. There will be great rejoicing among the residents along the line of the M. K. & T.
